

SUMMARY

UX Designer with 4+ years of experience designing AI-powered product experiences, scalable design systems, and enterprise applications across desktop, web, and mobile. Passionate about simplifying complex AI workflows into intuitive, accessible user experiences through systems thinking and cross-functional collaboration.

WORK EXPERIENCE

UI/UX Designer — [Tekxera \(formerly Gemraj Technologies Ltd\)](#) Jan 2022 – Present · Remote

- Built and maintained a scalable Design System with reusable components and documentation across 20+ client projects.
- Defined component governance and design review processes, enabling cross-functional teams (designers, engineers, PMs) to adopt and extend the system with minimal friction.
- Redesigned the core product experience end-to-end — from user research and information architecture through high-fidelity UI and developer handoff, contributing to a ~60% improvement in user satisfaction.
- Applied AI-assisted design workflows (Figma AI, prompt-based iteration, layout automation) to accelerate design exploration and reduce manual effort in component creation.
- Conducted usability testing, heuristic evaluations, and iterative UX improvements that reduced post-release issues by ~25%, while improving accessibility by applying WCAG 2.x best practices across all components — a foundational requirement for DLS adoption at scale.

Founder & Product Designer — [NudgeFile \(Featured Product\)](#)

- Designed and launched an AI-powered Windows desktop application for intelligent file organization and workflow automation.
- Designed the UX for an AI-driven multi-step automation pipeline — including AI-powered file renaming (Powered by Ollama), folder monitoring, and duplicate detection — with review-before-action, undo, and rule-based controls so users could trust and override AI-driven decisions, a pattern directly relevant to agentic UX design.
- Used Cursor, Claude Code, ChatGPT, and Gemini to accelerate design, prototyping, and product development.
- Built and iterated the product based on real user feedback from Product Hunt, early adopters, and usability testing to continuously improve the experience.
- Managed product strategy, branding, website design, marketing assets, and go-to-market execution as a solo founder.

Lead UI/UX Designer — [Digita World](#) Aug 2020 – Feb 2021 · Remote

- Led UI/UX design for the company's primary digital product, resulting in a ~50% uplift in user satisfaction metrics — including wireframes, prototypes, dashboards, and responsive interfaces for web and social platforms.
- Collaborated with cross-functional teams to align product goals with user needs, improving onboarding and engagement through simplified navigation.

UI/UX Designer — [Freelance](#) Aug 2018 – Jan 2021

- Designed responsive web and mobile experiences for startups, agencies, and SMB clients across multiple industries, managing the complete design lifecycle independently — discovery, research, wireframing, prototyping, UI design, and delivery.
- Improved client conversion and engagement through usability-focused design improvements, collaborating directly with founders and developers to define product requirements.

CORE SKILLS

UX: User Research, User Interviews, Personas, Journey Mapping, Information Architecture, User Flows, Wireframing, Interaction Design, Heuristic Evaluation, Accessibility (WCAG 2.x), Usability Testing, Design Thinking, Product Design

UI Design & Systems: Design Systems, Component Libraries, High-Fidelity UI, Responsive Design, Mobile App Design, Web Design, Prototyping, Adaptive Design

AI-Enhanced UX & Design: AI-Assisted UX Research, AI-Driven Wireframe Ideation, Prompt-Based Design Iteration, UX Insights Using AI Tools, Design Automation & Layout Exploration, Figma AI Workflows

Tools: Figma, Framer, Rive, Claude Code, Cursor, Google Gemini, ChatGPT, Google Stitch, Antigravity

Soft Skills: Empathy, Design Advocacy, Storytelling, Cross-functional Collaboration, Communication, end to end Ownership

Technical Design Skills: HTML, CSS, JavaScript, Responsive Design, Prototyping, Developer Handoff

RECOGNITIONS & PROFESSIONAL ACTIVITIES

Design Mentor – Vibe(X) Designation by Sandskriti (Virtual, May 2025)

Mentored designers during a multi-week virtual designation; provided design feedback, UX guidance, and design review support.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) — CGPA: 7.88, *Arya College, Ludhiana* · Jul 2015 – Aug 2018

Interaction Design Foundation (IxDF) · Certification in Google UX Design (Coursera) · Google AI Professional Certificate
